## Our mission

Improving economic policy

---

## How

Through open, evidence-based and policy-relevant research, analysis and discussion

Established in 2005, Bruegel does not have any particular policy doctrine. Our research draws on the latest analysis to assess economic transformations, discuss policy options and propose recommendations – while always keeping an eye on their practical feasibility.

In doing this, we contribute at various stages of policy-making, setting the agenda, shaping fast-moving policy debates in real time and evaluating policies to propose improvements.

We are committed to impartiality, openness and excellence. These values reassure stakeholders that Bruegel can make a legitimate contribution to improving economic policy.

Thanks to our dual focus on analysis and impact, and our dynamic relationships with policy makers at every level of governance, we have established ourselves as a vibrant laboratory for economic policy.

*"Over the years, I guess Bruegel has become synonymous with excellent and policy-relevant research. It's the kind of research that makes officials like me hopefully do a better job, and I'm glad to see that this is also recognised by others".*

## Who supports Bruegel

Bruegel's distinctive nature rests on a balanced partnership between private and public stakeholders. A diverse set of stakeholders helps buttress independence and allows the budget to cover the funding cycle.

# Membership benefits

Members are at the core of Bruegel's organisational framework, of its governance and of the process under which research topics are selected. They support Bruegel's efforts to push the frontier of economic research and to influence policy.

## A voice in Bruegel's research programme

While research and publication remain entirely independent, the design of Bruegel's research agenda is the result of a joint collaboration between Bruegel's fellows and members.

## Exchange ideas with Bruegel fellows

Members interact with our fellows through phone calls and face-to-face exchanges. They are also regularly updated on Bruegel's activities, research and upcoming initiatives via the weekly members newsletter. Our fellows participate in members' events, conferences and internal retreats.

## A stake in Bruegel's governance

Every three years, members elect Bruegel's Board. The Board, chaired by Jean-Claude Trichet, appoints the Director and has decision-making powers on Bruegel's strategy, research programme, partnerships and budget. Every three years, members appoint the review task force to evaluate all aspects of Bruegel's work from research to management.

## Priority access to all Bruegel events

Bruegel members are regularly invited to participate as guest speakers at Bruegel events, and to brainstorming discussions. They have access to our restricted off-the-record workshops and they are also invited to Bruegel's Annual Meetings and Annual Dinner.
