BE PART OF BRUEGEL
Our mission
Improving economic policy

How?
Through open, evidence-based and policy-relevant research, analysis and discussion.

Established in 2005, Bruegel does not have any particular policy doctrine. Our research draws on the latest analysis to assess economic transformations, discuss policy options and propose recommendations – while always keeping an eye on their practical feasibility.

In doing this, we contribute at various stages of policy-making, setting the agenda, shaping fast-moving policy debates in real time and evaluating policies to propose improvements.

We are committed to impartiality, openness and excellence. These values reassure stakeholders that Bruegel can make a legitimate contribution to improving economic policy.

Thanks to our dual focus on analysis and impact, and our dynamic relationships with policy makers at every level of governance, we have established ourselves as a vibrant laboratory for economic policy.

The 2020 Global Go To Think Tank Index Report, published by the University of Pennsylvania, ranked Bruegel as:

1#
Top Think Tanks in Western Europe
Top International Economics Policy Think Tanks

2#
Top Think Tanks Worldwide (US and Non-US)
Think Tanks with Outstanding Policy-Oriented Research Programs
Best Quality Assurance and Integrity Policies and Procedures
Best Institutional Collaboration Involving Two or More Think Tanks

4#
Think Tanks with the Most Significant Impact on Public Policy

5#
Best Managed Think Tanks
Think Tanks with the Best Use of the Internet
Best Use of Media (Print or Electronic)

Five stars
Transparify, an independent NGO, has repeatedly awarded Bruegel five stars out of five for transparency, recognising its openness about financing and governance.

**PRISMA**: aims to bring integrated assessment models to the next level by focusing on four key areas of improvement, namely the representation of distributional justice and efficiency, innovation and finance, climate impacts and land-use implications, and lifestyle change and circularity.

**DECIPHER** (Decision-making framework and processes for holistic evaluation of environmental and climate policies): Holistic and operational decision-making framework that integrates advanced economic and biophysical models, empirical methods and stakeholder participation tools.

**IAM COMPACT** (Expanding Integrated Assessment Modelling: Comprehensive and Comprehensible Science for Sustainable, Co-Created Climate Action): Assessment of global climate goals and design of the next round of NDCs and policy planning beyond 2030 for major emitters and non-high-income countries.

**ECONOMICS OF CLIMATE & ENERGY TRANSITION**: covers four main thematic areas: Climate and Energy Policy, Green Macro, Green Diplomacy, and Green Finance. The overall objective of the work is Ensuring Europe’s decarbonisation pathway consistent with the 2050 climate neutrality target and ensuring an increased global cooperation on climate action.

**TT NETWORK ON EUROPEAN GREEN DEAL** aims to strengthen the collaboration between think tanks active in understanding and unlocking the potential, impact and implementation of specific policy tools of the EGD and build the knowledge to define political objectives and priorities for the EGD.

**FUTURE OF WORK AND INCLUSIVE GROWTH** in Europe closely analyses the impact of technology on nature, quantity and quality of work, welfare systems and inclusive growth at large.

**MACROECONOMICS OF DECARBONISATION** project aims to build the required knowledge to develop a solid and coherent macroeconomic framework of European decarbonisation and develop a macroeconomic policy agenda for the European Green Deal.

**BB-FUTURE** project aims to analyse the size and the implications
GLOBAL ECONOMY AND TRADE
Competition policy, transatlantic relations, energy, monetary policy, European single market, emerging economies, trade policy, future of work, geopolitics, financial crisis, global governance, capital markets, migration, EU budget, multilateralism, tax policy, security

EUROPEAN GOVERNANCE
Competition policy, transatlantic relations, energy, monetary policy, European single market, emerging economies, trade policy, future of work, geopolitics, financial crisis, global governance, capital markets, migration, EU budget, multilateralism, tax policy, security

BANKING AND CAPITAL MARKETS
Competition policy, transatlantic relations, energy, monetary policy, European single market, emerging economies, trade policy, future of work, geopolitics, financial crisis, global governance, capital markets, migration, EU budget, multilateralism, tax policy, security

DWARC (Dealing with a Resurgent China)
Responds to the European need to develop a long-term approach to engage strategically with the resurgent and increasingly assertive China and the global changes unleashed thereby.

RETHINK-GSC (Rethinking Global Supply Chains: measurement, impact and policy)
Aims to enhance the understanding of the impact of GSCs using new measures that can quantify the role knowledge flows, and thus acknowledge the increasing importance of intangibles in global production.

TISMA II/NIESA: The TISMA project continuation will provide policy recommendations regarding an alternative to the “carbon club” plan, being negotiated between the USTR and the EU. The aim is a negotiated outcome that is compliant with existing international obligations, complements the EU Carbon Border Adjustment Mechanism (CBAM), and EU Member States governments’ efforts towards an open and cooperative international climate club.

The NIESA project starts from the need of political convergence among WTO members on permissible environmental subsidies that minimize negative cross-border economic externalities and maximize positive economic and environmental spillovers. It aims at generating public knowledge and awareness of key constituencies for net-global welfare enhancing International Environmental Subsidies Agreement design.

EU3D (EU Differentiation, Dominance and Democracy)
Develop and apply a theory of differentiation that specifies the conditions under which differentiation is politically acceptable, institutionally sustainable and democratically legitimate.

of the incoming care wave of aging baby boomers on economic and social outcomes in Europe, and develop policy recommendations for advance planning at the EU and MS levels.

For almost 20 years now, Bruegel’s input on economic policy issues has greatly contributed to the European debate. As a politician and former economist and a friend of Bruegel, I think it’s important to repeat how Bruegel’s analytical work on many aspects of the European Union has been and still is crucial to ongoing debates. It greatly contributes to bringing about clear, coherent and constructive changes throughout the European Union.

Laurence Boone,
Secretary of State for European affairs, France

Who funds Bruegel?
Bruegel’s distinctive nature rests on a balanced partnership between private and public stakeholders. A diverse set of stakeholders helps buttress independence and allows the budget to cover the funding cycle.

Membership benefits

Members are at the core of Bruegel’s organisational framework, of its governance and of the process under which research topics are selected. They support Bruegel’s efforts to push the frontier of economic research and to influence policy.

A voice in Bruegel’s research programme

While research and publication remain entirely independent, the design of Bruegel’s research agenda is the result of a joint collaboration between Bruegel’s fellows and members.

Exchange ideas with Bruegel fellows

Members interact with our fellows through phone calls and face-to-face exchanges. They are also regularly updated on Bruegel’s activities, research and upcoming initiatives via the weekly members newsletter. Our fellows participate in members’ events, conferences and internal retreats.

A stake in Bruegel’s governance

Every three years, members elect Bruegel’s Board. The Board, chaired by Erkki Liikanen, appoints the Director and has decision-making powers on Bruegel’s strategy, research programme, partnerships and budget. Every three years, members appoint the review task force to evaluate all aspects of Bruegel’s work from research to management.

Priority access to all Bruegel events

Bruegel members are regularly invited to participate as guest speakers at Bruegel events, and to brainstorming discussions. They have access to our restricted off-the-record workshops and they are also invited to Bruegel’s Annual Meetings and Annual Dinner.
