

Future of work and inclusive growth

A long-lasting European research-to-action platform, in collaboration with the Mastercard Impact Fund and Mastercard Center for Inclusive Growth (CFIG) – 2020-2023

Center
for Inclusive
Growth

Mission

To build a lasting European platform on the Future of Work that:

Monitor

the societal change induced by technological development and adoption

Studies

the underlying dynamics of labour and product markets

Inspires

decision makers with policy advice and best practises

Provides

for a go-to sounding board to test ideas and solutions

Research

#1 Technology and tasks

changing what we do at work

- AI and smart tech in the workplace
- Job quality and wellbeing

#2 Technology and the employment relationship

changing how, when and where we work

- Telework and hybrid working
- Platform work and online labour markets

#3 Technology and skills

changing what need to know at work

- Reskilling for the Twin Transitions
- Career transitions and mobility pathways

#4 Technology and inclusive economy

equity in work and shared prosperity

- Labour market discrimination
- Biased technology and digital divide

Action

Dashboard

A comprehensive analytical tool to monitor the impact of technological change on labour markets in Europe

- ✓ Updated in real time
- ✓ Broad set of data sources
- ✓ Accessible and customizable

Case studies

Multi-level case studies to illustrate and share best practices from across Europe

- Steering technological change: human-centered technologies
- Adapting to technological change: reskilling and transitioning

Publications

By the Excellence Network and Bruegel researchers
Policy contributions, blogposts, opinion pieces

Outreach

#inclusiveTechAtwork

- Designated webpage [Future of Work and Inclusive Growth](#)
- Events to connect researchers, policymakers and private sector
- Podcasts
