Bruegel and the European Economic Advisory Group (EEAG) at CESifo are pleased to invite you to a seminar on the strategies to exit the financial and economic crisis without jeopardising the recovery now under way, providing an outlook for the coming 12 months. The conference will be held on Tuesday, 23 February, from 11:00 to 13:00.

This event marks the official launch of the 2010 EEAG Report on the European Economy, which provides a comprehensive forecast for the European economy for the coming year and reviews the policy options available. It focuses this year on rebuilding trust in the financial markets, the effects of public debt, US imbalances, and the challenges for the euro zone. The EEAG comprises eight internationally renowned economists from seven European countries.

The event will feature presentations by **Hans-Werner Sinn**, President of the Ifo Institute for Economic Research and Director of CESifo, as well as **Gilles Saint-Paul**, EEAG Chairman and Professor of Economics at the University of Toulouse, **Jacob von Weizsäcker**, Research Fellow at Bruegel and **Reinhilde Veugelers**, Senior Fellow at Bruegel and Professor at KULeuven, who will chair the meeting.

A question-and-answer session will follow the presentations.
